

PLANT SEEDS OF LOVE WITH

WEED DATING

Saturday July 14

At times, dating can seem like an endless walk among the weeds. At Meadow Creek Farms, we're putting that metaphor to work – literally! At this fun event, singles come to our farm and meet other singles, all while weeding and learning about the operation of a small organic farm.

We encourage people to come out, not just for dates, but also to meet others who are curious about local food. Arrive Saturday at 3 pm to check in at the farm.

Weed Dating officially kicks off at 4 pm with a short farm tour and instructions from Farmer Mandy. The group will then be split into pairs and tasked with pulling weeds in our organic vegetable crops. Pairs work together in a row and get to know each other. After 20 minutes, everyone will switch partners and spend some time chatting and working with a new person. Around 6 pm we will all share a Farm to Table supper and social until 10 pm.

Come just to get out of the city if you like! Bring a few friends with you! There is accommodation if you wish in nearby Smoky Lake.

What to Expect: Get your hands dirty and make some meaningful connections. Be ready for all kinds of weather with appropriate clothing and sunscreen, bug spray, water and sturdy shoes.

“Good food is all the sweeter when shared with good friends.”
